EDUCATION

Texas Christian University	Fort Worth, TX.
Bachelor of Science in Geography, <i>Summa Cum Laude</i>	2022 – 2026
Bachelor of Arts in History, <i>Summa Cum Laude</i>	

Honors/Awards: Phi Beta Kappa Society, Phi Alpha Theta History Honor Society, Gamma Theta Upsilon Geographical Honor Society, TCU Community Scholar, Dean's List (2022-2026), TCU Scholar (2023-2026)

SKILLS

Technical: Esri ArcGIS Pro & Online (Advanced), Esri Suite (Proficient), Microsoft Office (Advanced), Python (Intermediate), Tableau (Beginner)

Interpersonal: Verbal & Written Communication, Team Collaboration, Spanish (Proficient)

PROFESSIONAL EXPERIENCE

TCU Center for Urban Studies , Fort Worth, TX	
<i>Research Assistant</i>	December 2024 – May 2026

- Georeferenced and analyzed 800+ historical Sanborn fire insurance maps in ArcGIS Pro and ArcGIS Online, converting archival imagery into accurate, analysis-ready spatial data
- Designed and executed a spatial analysis of Texas Senate Bill 840's effects on housing development across 20 major Texas cities, projecting areas of potential residential growth
- Built and maintained extensive GIS datasets spanning historical and present-day records across a 20-city footprint, supporting multiple research projects

North Central Texas Council of Governments , Arlington, TX	
<i>Transportation Intern</i>	June 2025 – August 2025

- Led development of an ArcGIS StoryMap visualizing 2024-2025 DFW regional trail-use data
- Performed quality-control checks and data analysis on regional bicycle and pedestrian counter data using Excel and ArcGIS
- Contributed to team GIS mapping projects, report drafting, and database management

AddRan College of Liberal Arts , Fort Worth, TX	
<i>Summer Undergraduate Research Fellow</i>	May 2024 – August 2024

- Conducted archival research, organizing and analyzing primary and secondary sources
- Drafted an academic article and presented the findings, visually and verbally, at a symposium and poster session

SELECTED PROJECTS

Fort Worth Light Rail Network Proposal

Senior GIS Capstone, ArcGIS Pro

- Designed a light rail network proposal for Fort Worth in ArcGIS Pro, modeling candidate corridors and applying network analysis with demographic weighting to site stations and estimate ridership demand
- Built an HTML-based web app pairing interactive maps with supporting cartography and context to present the proposal to a non-technical audience

Fort Worth Nature Center & Refuge Biodiversity Mapping

ArcGIS Pro, Python (arcpy)

- Developed an ArcGIS Pro workflow processing ~80,000 iNaturalist records to map species density (kernel density estimation) and biodiversity (Shannon Diversity Index) across the Fort Worth Nature Center & Refuge
- Wrote a Python (arcpy) script to automate the analysis across multiple hex-grid resolutions and standardized species taxonomy with Arcade expressions
